

Newberry Hospital's Accredited Joint Replacement Program is a better way of care.

Between 1993 and 2009, the number of knee replacements performed each year tripled. Hip replacements also increased. Many of those seeking joint replacement surgery are Baby Boomers who have no intention of slowing down. They still want to golf, hike, bike, play tennis and work at physical jobs.

Another factor driving demand for knee joint replacement surgery is obesity. Excessive body weight is very damaging to knee joints. Many younger adults with weight issues find their mobility is compromised and need knee joint replacement surgery to function normally.

Now patients can regain mobility and the ability to enjoy life with hip or knee replacement surgery at Newberry Hospital. Our nationally certified **Joint Replacement Program** is a Center of Excellence, which means a better way of care for you.

Is Joint Replacement Surgery right for you?

Any type of surgery requires a thoughtful decision. If you are considering joint replacement surgery or have questions about our Program, contact Newberry Hospital at **803.405.7421** or visit **NewberryHospital.org**.

A Better Way of Care

BACK ON TRACK
Joint Replacement Program
An Orthopedic Center of Excellence
Hips | Knees | Results

When it comes to Joint Replacement Surgery, results matter.

The decision to have a hip or knee joint replaced is a big one. Choosing the right orthopedic surgeons and hospital can make a difference in your results.

Newberry Hospital has been named among the Top 10% in the nation for joint replacement for five years in a row. This is based on our low complication rates and how well patients do post surgery. It certainly helps that our infection rates are near zero! Patient safety is our top priority.

Our Joint Replacement Program is located on the newly remodeled third floor. Patient rooms are designed for greater comfort: larger doorways, walk-in showers, flat screen TVs, WiFi and more. Physical therapy is there, too, so patients don't have far to go. Our doctors, nurses, therapists and staff are focused on one thing: the best results for each patient.

Back on Track: Joint Rehabilitation

One of the secrets to our successful Joint Replacement Program is patient education. We encourage all of our joint replacement candidates and their partners to enroll in "Back on Track," a program that teaches you what to expect before, during and after surgery. Back On Track classes are free of charge and held the first and third Wednesday of each month at 11:30 am at the Newberry Hospital Wellness Center Meeting Room in the Atrium Professional Building (adjacent to the hospital). Call 803.405.7421 to RSVP.

Kim Crone is a physical therapist in our joint rehabilitation program. She takes pride in getting patients moving again!

Meet the Orthopedic Surgeons of Palmetto Bone & Joint

Newberry Hospital's bone and joint replacement team includes three board certified orthopedic surgeons. This exceptional medical group performs the latest joint replacement surgical techniques. Palmetto Bone & Joint's Newberry office is located in the Atrium Professional Building adjacent to the hospital.
